

# Enjoy a healthy and happy holiday season with Wet Ones®!

From the **gooey gloop** of gingerbread crafts to **sticky little hands** pushing stuffing into turkey, holiday times are full of little helpers making big messes. Fortunately, you've got Wet Ones® Antibacterial Hands & Face Wipes to wipe away messes. But did you know that Canada's leading hands and face wipes are also the perfect way to kill germs?

When the family comes together for the holidays, there are bound to be some coughs and sniffles around the table. You already know clean hands are the best defence against getting sick. So with a quick wipe of the hands before "Please pass the pie," Wet Ones® will help kill germs around your holiday table.

Don't forget to tuck a couple of Wet Ones® Travel Packs into your purse, backpack and travel bag when you're on the go. Cough and cold germs like to hang out in all the same places you do during the winter months—malls, airports, restaurants and movie theatres. More convenient than hand sanitizers, Wet Ones Antibacterial Wipes are the simplest way to keep your family healthy and clean during the holiday season.

## Wet Ones® Antibacterial Hands & Face Wipes:
